Reason for Allowance

The following is an examiner's statement of reasons for allowance: the applicant's amendment filed on 09-06-05 overcomes the technical deficiencies and the prior art of record.

The prior art reference of records (6,271,713; 6,137,313; 6,504,402) fails to teach or fairly suggest a feed forward circuit for reducing delay through an input buffer wherein the inverting circuit comprises a high impedance transistor and a low impedance transistor having drains coupled to the source of the n-channel transistor of the inverting circuit and sources coupled to the ground and wherein the low impedance transistor is ON when the output of the inverting circuit is high as called for in claim 7. Therefore, claims 7 and 8 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
